# Making Open Science Schooling a Reality for Secondary School Students

## Project Progress

## Dissemination Activities (Throwback - Romania)

### Partner Meeting – Interview Protocol (virtual), Jan 2022

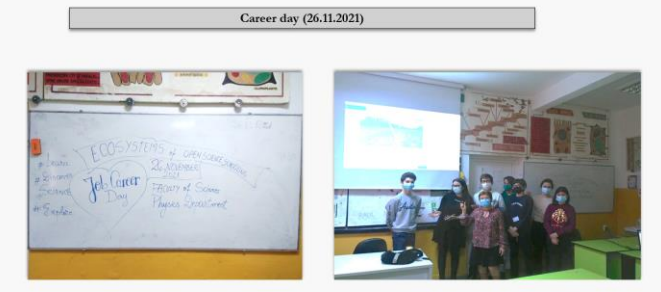

Coordinated by the Wittenborg University of Applied Sciences, the objective of this meeting was to discuss and collaboratively confirm the protocols for conducting interviews for collecting comprehensive data towards the project's current workings and future sustainability. The interview participant groups included, students, teachers, school administration and external eco-system partners within each partner context.

The interview topics widely covered:

- ✚ Views on science and teaching science
- ✚ Idea of the eco system of their own schools
- ✚ Planning missions within the Ecosystem project
- ✚ Choosing external ecosystem partners to collaborate for the project.

The data collected, would facilitate three of the four Intellectual Outputs (IOs)

- IO-1** The guidance pack for the schools about establishing collaboration with the stakeholders
- IO-3** Policy guidelines for educational authorities, and
- IO-4** Research papers on the topic.

## Next Up in 2022

A five-day School Team Mobility Event is tentatively scheduled to take place sometime between April – June 2022 in Apeldoorn, Netherland. Confirmed details will be published once the official announcement is made.

Wishing everyone a fabulous, productive and a knowledge-rich rest of the year!
